BEST-SELLING TRAILS ILLUSTRATED MAPS

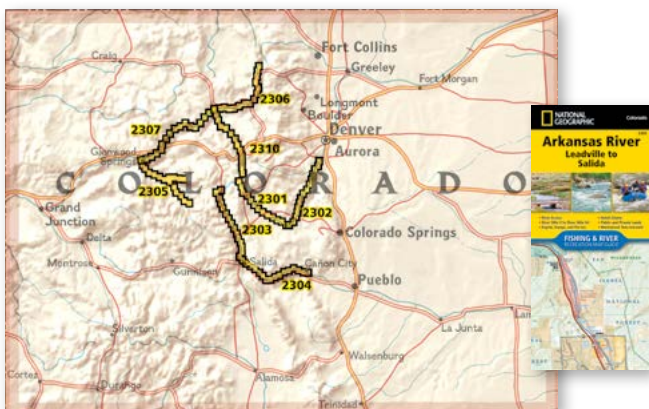

COLORADO TRAIL

These Topographic Map Guides cover the Colorado Trail in a new and exciting format. They use the same backcountry tough paper as the Trails Illustrated maps but are folded into a small booklet. Each page is centered on the trail with a trail profile to show your vertical progress.

COLORADO 14ERS & BACKPACK LOOPS

Sometimes it makes more sense to map a series of disconnected trails such as the 14ers (yellow) as separate pages and join them together in a collection of maps. This same concept has also been used to map a collection of Colorado backpack loops (purple).

FISHING & RIVER RECREATION MAP GUIDE

The Fishing & River Recreation Map Guides are a new endeavor for National Geographic. These maps are folded into a small booklet format with each page centered on the river. They clearly show access points and the patchwork of ownership that are typical of Colorado rivers.

LOCAL TRAILS

Have you ever arrived in a new town and wanted some advice on what the best hike might be? The new Local Trails maps are folded maps with a selection of highlighted trails with descriptions, trail profiles, and other important information. Great for use by everyone from the novice to the power user.
